APPLICATION

THERMAL RESISTANT DRYWALL

Using **DURAflex** board with thickness 8mm more or **Gyproc** regular plasterboard

ADVANTAGES OF VINH TUONG'S THERMAL RESISTANT SOLUTION

- . Lower internal temperature of your house than the outside
- . Reducing the monthly cost for household electricity
- . Increasing houses lifetime by minimizing of heat accumulation which causes leak and crack on the building surfaces.
- . Applying the diverse aestheticism to various interior styles with a wide range of material choices

MOISTURE RESISTANT DRYWALL

Using **DURAflex** board with thickness 8mm more or **Gyproc** moisture resistant plasterboard

ADVANTAGES OF VINH TUONG'S MOISTURE RESISTANT SOLUTION

- . Keeping house space dry and clean
- . Increasing house lifetime by minimizing the deformation and generation of mould on the building surfaces.
- . Protecting owner's health by minimizing of mould and bacteria
- . Applying the diverse aestheticism to various interior styles with a wide range of material choices

RECOMMENDATIONS

4 BASIC TIPS FOR CONSTRUCTION TO HAVE INSIDE DURABILITY AND OUTSIDE BEAUTY

1. The distance between the two vertical bars is 610mm or 406mm
2. The distance to drive screws is 200mm at board edges and 300mm inside boards
3. Boards should be staggered, no coincidence

Right: High bearing capacity of walls, thus higher durability

Wrong: Poor bearing capacity of walls, thus lower durability

Right: The connection between boards and frames is secure, increasing durability for the system

Wrong: The connection between boards and frames is weak and unaesthetic

Right: Minimizing drywall cracks

Wrong: Difficult to handle and easy to cause drywall cracks

4. Using **DURAflex** - Jointing Powder for calcium silicate boards to achieve perfection in completing the ceiling system

RECOMMENDATIONS OF VINH TUONG

1. Synchronously use Vinh Tuong's products: frames, boards, and accessories to ensure system stability.
2. Using ceiling/wall with additional features of thermal resistant, moisture-resistant, sound insulation... Visit www.vinhvuong.com or www.trannhadep.com for more information.
3. Installers with Vinh Tuong occupation cards are recommended to ensure professional installation.

For more information, please contact us via toll free 1800 1218

PLASTERBOARD Gyproc

- Outstanding acoustic, thermal and fire resistant performances
- Easy to install and curve; adaptive to all complex designs

CALCIUM SILICATE BOARD DURAflex

- Suitable for moist, high fire-resistant, anti-termite feature
- Bright and smooth, unbroken when shooting screws, no shrinkage
- For concealed ceiling systems which use DURAflexboards, joining the gap between the flat joints by joint compound is recommended

VINH TUONG BOARDS RECOMMENDED FOR DRYWALL SYSTEM
